INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.

PCT/GB 03/02423

1	Racie	of the	report
	Dasis	OI UIC	16bor

 With regard to the elements of the international application (Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17)):

			·					
	Desc	cription, Pages						
	1-12		as originally filed					
	Clai	ms, Numbers						
	1-12		as originally filed					
2.	With lang	regard to the langua uage in which the inte	ge, all the elements marked above were available or furnished to this Authority in the ernational application was filed, unless otherwise indicated under this item.					
	These elements were available or furnished to this Authority in the following language: , which is:							
			nslation furnished for the purposes of the international search (under Rule 23.1(b)).					
		the language of publi	cation of the international application (under Rule 48.3(b)).					
		the language of a tra Rule 55.2 and/or 55.3	nslation furnished for the purposes of international preliminary examination (under 3).					
3.	With inte	n regard to any nucle rnational preliminary e	otide and/or amino acid sequence disclosed in the international application, the examination was carried out on the basis of the sequence listing:					
		contained in the inter	rnational application in written form.					
		filed together with the	e international application in computer readable form.					
			ntly to this Authority in written form.					
		furnished subsequer	ntly to this Authority in computer readable form.					
		in the international a	he subsequently furnished written sequence listing does not go beyond the disclosure pplication as filed has been furnished.					
		The statement that the listing has been furn	he information recorded in computer readable form is identical to the written sequence ished.					
4	. The	e amendments have r	esulted in the cancellation of:					
		the description,	pages:					
		the claims,	Nos.:					
		the drawings,	sheets:					
5	5. 🗆	been considered to	n established as if (some of) the amendments had not been made, since they have go beyond the disclosure as filed (Rule 70.2(c)).					
		(Any replacement s report.)	heet containing such amendments must be referred to under item 1 and annexed to this					
•	5. Ac	Iditional observations,	if necessary:

Basis of the opinion

Reference is made to the following documents:

D1: WO-A-0221919 (PALLETT KEN; AVENTIS CROPSCIENCE SA (FR);

SLATER ASHLEY (GB)) 21 March 2002 (2002-03-21)

D2: US-A-5912207

D3: WO-A-0195722

The present invention relates to herbicidal compositions comprising a metal chelate of a 2-(substituted benzoyl)-1,3-cyclohexadione and an organic phosphate, phosphonate or phosphinate adjuvant.

Item V

Reasoned statement under Rule 66.2(a)(ii) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

Novelty (article 33(2) PCT):

D1 (see page 3, paragraph 1; example C1) discloses an herbicidal composition comprising an urea herbicide, 2-(2'-nitro-4'-methylsulfonylbenzoyl)-1,3-cyclohexadione and ethoxylated tristyrylphenol phosphate (Soprophor FL) as an adjuvant. The cyclohexadione active ingredient can also be present in the herbicidal formulation in the form of a salt or a metal complex .Therefore is D1 novelty-destroying for claims 1-8,11,12.

Inventive step (article 33(3) PCT):

Should the application meet the requirements of Article 33(2) PCT, claims 1-12 would involve an inventive merit over **D2 to D3**, which are considered as the closest prior art documents.

Industrial applicability (article 33(4) PCT):

Can be acknowledged for claims 1 to 12.
